

LIQUID DRAIN ROD SULPHURIC ACID DRAIN CLEARER

**FULL STRENGTH –
for Industrial and
Professional use
only!**

FULL INDUSTRIAL STRENGTH

Liquid drain cleaner with heavier than water formulation. Powerful chemical action destroys organic solids such as grease, sanitary towels, coffee grounds, soap, paper, lint, cigarette ends and cloths. Foreign matter not dissolved by **LIQUID DRAIN ROD** is carried away as the organic "binders" disintegrate.

- Versatile – can be used in all types of drains and grease traps
- Safe to use on plastic pipes and other parts of drain systems
- Reduces foul odours – kills bacteria, fungi and algae; destroys decomposing and rotting matter that are often the cause of offensive smells
- Powerful chemical action – destroys organic solids and grease
- Fast acting – special formulation for quick penetration

LIQUID DRAIN ROD is 100% water soluble and mixes with hard or soft water. Heavier than water the unique formula holds the active chemicals together, allowing them to sink to the source of the problem with minimum loss of activity.

Refer to the Safety Data Sheet and read Directions and Handling Precautions on the Product Label before using this product

**FOR INDUSTRIAL AND PROFESSIONAL USE ONLY
DO NOT MIX WITH OTHER CHEMICALS**
